

NCERT Mathematics Solutions by Dev Anoop (Bathinda)

Class 9 - Ex 3.1

1. let red dot represent table lamp on table.

let x be its distance from shorter edge facing door.

let y be its distance from longer edge facing longer wall adjacent to door.

so table lamp is placed at distance of x units from shorter edge facing door and y units from longer edge facing longer wall adjacent to door.

2 (i) one (ii) one
