

③ first 5 whole nos are 0, 1, 2, 3, 4

$$\text{Mean} = \frac{\text{Sum of all observations}}{\text{no. of observations}}$$

$$= \frac{0+1+2+3+4}{5}$$

$$= \frac{10}{5}$$

$$= 2$$

④ Mean Score = $\frac{58+76+40+35+46+45+100}{8}$

$$= \frac{400}{8}$$

$$= 50$$

⑤; Mean points scored by A

$$= \frac{14+16+10+10}{4}$$

$$= \frac{50}{4}$$

$$= 12.5$$

3

⑥ Mean points scored by B = $\frac{0+8+6+4}{4}$

$$= \frac{18}{4}$$

$$= 4.5$$
